

GENERAL POLICY STATEMENT **SAFETY, HEALTH & ENVIRONMENTAL**

Introduction

Mayflower North West Ltd, believe that there is no other function within the company that has greater importance than the management of Health & Safety and our impact on the environment.

Our safety, health and environmental (SHE) management system has been successfully developed from the CITB, Construction Site Safety (GE700) and NHBC guidance.

Mayflower North West Ltd firmly believe that the active promotion of a positive SHE culture is a fundamental management principle and a key function of line management.

General Policy Statement

It is the policy of Mayflower North West to:

1. Provide and maintain a safe place of work, systems of work and plant that are safe and without risk to the safety, health and welfare of all its operatives, independent contractors, and members of associated companies and the general public, so far as it is reasonably practical to do so.
2. Provide appropriate information, instruction and supervision for all parties.
3. Allocate sufficient resources to enable the SHE policy to function effectively.
4. Commit to the prevention of pollution.
5. Work in conjunction with the business's own professional SHE policy in order to continually improve safety, health and environmental performance.
6. Promote joint consultation with operatives, contractors etc.
7. Regularly assess operational performance, in order to ensure continual improvement.
8. Comply with statutory regulations, approved codes of practice, recognised guidelines and other requirements.
9. Issue technical guidance notes and supporting information in order to assist management in developing risk assessments and appropriate method statements.

We look to all our operatives, contractors, suppliers support and professionalism in making this policy effective.

Remember **Nobody** is expected to take risks on behalf of Mayflower North West.
